Student Information

Student Name: MS JIAYI WU University Number: 1909156
Date of Birth: 23/11/2000 HESA Number: 1911188091564

Academic Information

Teaching Institution(s): University of Essex Language of instruction: English
NQF Level: 6 Awarding Institution: University of Essex
Award: BACHELOR OF SCIENCE IN ELECTRONIC SYSTEM ENGINEERING
Classification: Class I Date of Award: June 2023

Record of Academic Achievement

2019/2020 YEAR 1: BSC Electronic System Engineering

Module Code	Title	Coursework	Exam	Aggregate	Class	Credit Obtained	Credit Level
CE165	Professional Development	69.7		70.0	N/A	15	4
CE166	Mathematics for Electronics and Telecommunications	80.5	56.2	68.0	N/A	15	4
CE151	Introduction to Programming	89.2	89.0	89.0	N/A	15	4
CE161	Fundamentals of Digital Systems	92.3	86.5	89.0	N/A	15	4
				Year Mark: 79.0			
				Year Credits: 60			

2020/2021 YEAR 2: BSC Electronic System Engineering

Module Code	Title	Coursework	Exam	Aggregate	Class	Credit Obtained	Credit Level
CE267	Engineering Mathematics	77.1	40.0	55.0	2.2	15	5
CE163	Foundations of Electronics I	82.5	62.0	72.0		15	4
CE162	Digital Electronic Systems	73.5	81.6	78.0		15	4
CE243	C Programming and Embedded Systems	73.4		73.0	1	15	5
CE164	Foundations of Electronics II	76.9	72.0	74.0		15	4
				Year Mark: 70.0			
				Year Credits: 75			

2021/2022 YEAR 3: BSC Electronic System Engineering

Module Code	Title	Coursework	Exam	Aggregate	Class	Credit Obtained	Credit Level
CE201	Team Project Challenge	77.9	82.0	80.0	1	15	5
CE268	Analogue Circuit Design	90.4	53.5	68.0	2.1	15	5
CE169	Network Fundamentals	87.3	69.7	76.0		15	4
CE264	Digital Systems Design	84.0	76.0	80.0	1	15	5
CE235	Computer Security	95.0	72.0	79.0	1	15	5
CE266	Engineering Electromagnetics	62.5	89.0	81.0	1	15	5
CE223	Signal Processing	80.0	78.0	79.0	1	15	5
				Year Mark: 78.0			
				Year Credits: 105			

Transcript for Undergraduate Study

This document is an official transcript and provides details of an individual student's academic achievement for the duration of his or her course at the University of Essex. Details of prizes awarded are included, if applicable. Periods of study away, work placements and periods of temporary withdrawal from the University are also indicated if appropriate. If a student has been required to be re-assessed for individual modules then the final mark is shown on a separate line. Marks for re-assessed modules are normally capped at the pass mark. If a student repeats a whole year of study, both years are shown separately and marks will be uncapped.

The HESA ID number printed overleaf is a unique identifier given to students by the Higher Education Statistics Agency. Students wishing to study at another UK higher education institution will be required to provide this HESA ID number.

The Structure of University of Essex Awards

University of Essex awards are consistent in nomenclature and academic level with the *Framework for Higher Education Qualifications for UK Degree-Awarding Bodies* as published by the Quality Assurance Agency for Higher Education. Further information on the infrastructure of UK HE is available on the website at: www.qaa.ac.uk and at: <https://www.gov.uk/browse/education/universities-higher-education>

Honours Awards

University of Essex degree courses are described, for the purposes of academic progress, in terms of credit achieved each year. The table below shows the study requirements for each qualification:

Qualification	NQF Level	Total credits studied	Typical credit structure (Individual courses may vary)
Three-Year Honours Degree	6	360	120 credits at level 4 in the first year 120 credits at level 5 in the second year & 120 credits at level 6 in the final year
Four-Year Honours Degree	6	480	Typically as three year degree plus 120 credits in year three. Only marks which are included in the overall classification are shown for the period of study abroad, but students will have completed 120 credits. Credits may be at level 5 or 6 for courses studied or placement abroad or in the workplace.
Five-Year Honours Degree	6	600	Typically as four year degree plus 120 credits based for an additional work experience or placement year.

Credit is awarded for achieving the pass mark in a component made up of either a single module or two linked modules. Modules may be assessed by final examination, coursework or both. The final degree classification is derived from the results obtained in the second and subsequent years. To calculate the European Credit Transfer System (ECTS) credits, the University of Essex credit for each module should be divided by two.

Non-Honours Awards

Non honours awards may be studied for directly or may be made when a student withdraws from a degree course having achieved sufficient credits. The table below shows the study requirements for each qualification:

Qualification	NQF Level	Total credits studied	Typical credit structure (Individual courses may vary)
Foundation Degree (direct study only)	5	240	120 credits at level 4 in the first year & 120 credits at level 5 in the second year
Diploma of Higher Education	5	240	120 credits at level 4 in the first year & 120 credits at level 5 in the second year
Certificate of Higher Education	4	120	120 credits at level 4
Certificate of Continuing Education	4	60	60 credits at level 4

Some students may have studied a course which includes a preliminary year with modules at NQF level 3. These modules are at a sub-degree level.

Academic Standards

The standard pass mark is 40 per cent. Students may fail up to 30 credits on non-core modules of a three or four year course (or up to 15 credits on some shorter courses) and still achieve the award. The correlation between marks and degree class is:

Numerical Mark:	Honours Classification:	Non-Honours Classification:
69.5% and over	1 (First Class)	Distinction (where applicable)
59.5-69.4%	2.1 (Upper Second Class)	Merit (where applicable)
49.5-59.4%	2.2 (Lower Second Class)	Pass
39.5-49.4%	3 (Third Class)	
39.4% and lower	Fail	Fail

This degree classification system is in widespread use in the United Kingdom and is believed to represent objective standards. The final classification for an honours degree is given by either the weighted arithmetic average of marks for each module or the dominant quality of marks achieved in each class for second and subsequent years. Results are not modified to fit a standard distribution and so the number of students obtaining a particular degree class may vary significantly each year. Full details of the assessment rules are available on the website at: <http://www.essex.ac.uk/students/exams-and-coursework/ppg/ug/default.aspx>

Authenticity

This transcript should be presented on headed paper with the University seal and a signature. Further information and verification of this transcript's authenticity may be obtained by contacting the Academic Section, University of Essex, Wivenhoe Park, Colchester, CO4 3SQ or by phoning (01206) 874000 or by emailing askthehub@essex.ac.uk.

These notes reflect the new credit framework and terminology introduced by the University in 2007/08 and therefore may not represent the structures and rules of courses starting before 2007/08. Please contact the address above if you require further information about earlier courses.

School : School of Information Science and Technology

Major : Electronic Information Science and Technology

Class : School of Information Science and Technology 201901

Name : Wu Jiayi

Student's ID No : 2019117350

Sex : Female

Degree : Undergraduate

Educational system : 4years

Course	Type	Credit	Score	Makeup	Restudy	Point
2019-2020 Academic Year First Term						
Outline of Modern Chinese History	Required	2.0	90			4.0
Career Development and Planning I (Bilingual)	Required	2.5	85			3.7
Military Skill Training	Required	1.0	Good			3.7
Situation and Policy I	Required	0.5	90			4.0
Introduction to Programming (English) (Including Experiments)	Required	5.0	96			4.0
College English I - Sino-Foreign Cooperation Class	Required	4.0	87			3.7
Basic Physical Education	Required	1.0	85			3.7
Mathematics of Electronics and Communications I (Including Experiments) (Bilingual)	Required	4.0	77			2.7
2019-2020 Academic Year Second Term						
Ideological and moral cultivation and basic law education	Required	3.0	86			3.7
Fundamentals of Digital Systems (English) (Including Experiments)	Required	5.0	96			4.0
Psychological Healthy Education of College Students	Required	1.0	91			4.0
Basic Course of Health-related Physical Fitness	Required	1.0	86			3.7
Mathematics of Electronics and Communications II (Including Experiments) (Bilingual)	Required	5.0	83			3.3
Military Theory	Required	2.0	100			4.0
Situation and Policy II	Required	0.5	87			3.7
Career Development and Planning II (Bilingual)	Required	2.5	79			3.0
College English II - Sino-Foreign Cooperation Class	Required	4.0	95			4.0
Data Structure (SPOC)	General	2.0	92			4.0
Metalworking Practice	Required	1.0	81			3.0
2020-2021 Academic Year First Term						
IELTS English I (Bilingual)	Elective	4.0	79			3.0
Situation and Policy III	Required	0.5	88			3.7
Basic Course of Freestyle Basketball	Required	1.0	81			3.0
Engineering Mathematics (Including Experiments) (Bilingual)	Required	5.0	71			2.3
C Language Programming and Embedded System (English) (Including Experiments)	Required	5.0	85			3.7
Introduction to the Principle of Marxism	Required	3.0	69			2.0
Fundamentals of Electronics and Physics I (English) (Including Experiments)	Required	5.0	85			3.7
Undergraduate English Scientific And Technical Thesis Writing (Online Course)	General	2.0	92			4.0
2020-2021 Academic Year Second Term						
Fundamentals of Electronics and Physics II (English) (Including Experiments)	Required	5.0	85			3.7
Basic Class of Sports Dance	Required	1.0	82			3.3
Introduction to Mao Zedong Thought and theoretical system of socialism with Chinese characteristics	Required	6.0	88			3.7
Digital Electronic System (English) (Including Experiments)	Required	5.0	88			3.7
IELTS English II (Bilingual)	Required	4.0	81			3.0
Introduction To Sociology (SPOC)	General	2.0	86			3.7
Situation and Policy IV	Required	0.5	92			4.0
GPA:3.55	Required Credit:152	Earned Credit:141.00	Required:123.00	Elective:4.00	General:14.00
